[Drop Selected Courses] [Swap]

Once you have registered for all your courses, you are finished. No other steps are required to complete your registration. Please logout of the Centrenet to ease traffic on the system and help online registration to run smoothly.

Help us ensure the success of online registration:

1. Do not access online registration until your time to register. You can access the system prior to registration to view your dates and times to register, but please do this before registration begins.

2. Register as quickly as possible once you are in the registration system by knowing the correct course number and section letter for the courses you want and having alternates ready in case courses are closed.

3. Once you are finished, logout of Centrenet. Please do not reenter online registration during peak hours of registration week (10:00 am to 1:00 pm).

4. You will already be registered for a section of FYC 001 (Find Your Centre).

Thank you for all your assistance.
