**All students applying for off-campus housing are required to participate in the housing process unless living at home with parents.**

- As Centre values being a small, primarily residential college and with the addition of Pearl Hall, Brockman Commons, and Northside, very few students will be granted permission to live off campus. Only those living in or near Danville with their parents will be granted permission. If additional permission to live off-campus is granted by the housing office, it will be on a seniority basis and by number draw if necessary.
- All students will be required to have a meal plan whether living on or off campus unless living at home.
- August 1<sup>st</sup> is the latest date all off-campus decisions are finalized.
- Living off-campus in previous years does not automatically give you permission to live off-campus for the academic year 2022-2023. It is expected that requests for off-campus housing will be approved only in rare cases.
- It is the student's responsibility to check with the Financial Planning office to learn what impact living off-campus will have on his/her aid award. Federal College Work Study and Perkins Loans are often not awarded to off-campus students.
- Do not sign a lease. You will be responsible for the room charge and your off-campus rent if you sign a lease without permission to live off-campus.**

Your signature is required for completion of this application and indicates that you have read and understand all stipulations regarding off-campus housing for 2022-2023.
