

This is a reminder that you may access Math and Language Placement Tests [TODAY through June 9th](#).

- The purpose of placement tests is to know the appropriate level of math and second language courses you should take -- when you are ready to take either type of class. Note that you do not necessarily have to take either of these types of courses your first term at Centre.
- The results of these tests do not determine your success at Centre—they are simply meant to help make sure you are placed in the correct courses.
- **Placement testing opens on Tuesday May 26th and will be available through June 9th.**
- Go to the website [Placement Tests | Centre College](#) for detailed instructions and everything you need to know about placement tests.

Remember, you can go to the quick reference guide at [New Student Next Steps | Centre College](#) to follow the summer tasks timeline.
